

# Ubatuba

Ubatuba granite from Brazil is a finely textured granite featuring black, gold, gray and green speckles. The shimmering speckles of Ubatuba granite make it a perfect statement piece for indoor and outdoor applications such as granite countertops, backsplashes and more.

## physical test results

|                      |           | Imperial                 | Metric                     |
|----------------------|-----------|--------------------------|----------------------------|
| Absorption by weight | ASTM C97  | 0.256%                   | 0.256%                     |

Natural stone products inherently lack uniformity & are subject to variation in aesthetics—color, shade, finish, etc. and performance—hardness, strength. When & where your stone is quarried will affect color. Check local building codes prior to specification & installation to verify that the product technical characteristics comply with required parameters. Final selection should be made from sample submittals. The existence & dimensions of bevel may vary from lot to lot. WARNING: This product can expose you to chemicals known to cause cancer, including crystalline silica (airborne particles of respirable size) in dust created if the product is dry cut/ground/polished or pulverized during fabrication/installation/removal.
